

AbbVie is a highly focused, research-driven biopharmaceutical company.

We're a company that takes on some of the toughest health challenges. And we do more than just treat diseases – we aim to make a remarkable impact on people's lives.

As a new biopharmaceutical company, AbbVie combines the expertise of a recognised pharmaceutical company with the focus and innovative spirit of a biotech. Through a targeted, patient-centric approach to research and development, AbbVie accelerates new scientific discoveries to address some of the most complex diseases in the world, while our services and partnerships help us create greater access and outcomes for the health of all New Zealanders.

Focus matters

We focus on discovering, developing, and delivering medicines in therapeutic areas where we have proven expertise and where we can have an impact. These areas include:

Immunology | Oncology | Virology

Impact on patients

AbbVie helps patients throughout their journey.

We always look beyond the products we make in order to find better solutions for patients. In New Zealand, we have created a patient support program that goes far beyond basic disease information. This program enables patients to remain as active and independent as possible and helps to ensure optimal care.

20+

Conditions treated across infant, adolescent, adult and senior stages of life in New Zealand including; Rheumatoid Arthritis, Juvenile Arthritis, Ankylosing Spondylitis, Crohn's Disease, Psoriasis, Hepatitis C.

3,000+

New Zealand patients supported through our Patient Support Program, AbbVie Care.

5,000+

New Zealanders currently benefiting from AbbVie medicines.

AbbVie is committed to helping patients.

28+ million

Patients treated by AbbVie's medicines in 2018 globally.

Impact on science

Our science impacts lives.

At AbbVie, we have the commitment, expertise, and capabilities to provide life-changing products to patients who need them most.

Multiple new molecules are being studied in more than **20** cancers and tumour types.

AbbVie invests around **\$3m** in clinical research funding annually to support external local medical research studies and clinician development operations teams across New Zealand.

Currently testing

17
compounds in

49
clinical trials across

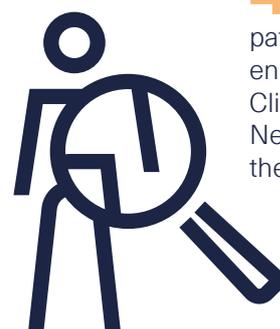

65
sites in New Zealand

Clinical Trials

Clinical trials are central to the work of biopharmaceutical researchers - they advance the science of bringing new medicines to the patients who need them.

22
State-of-the-art R&D and manufacturing centres across the globe.

An additional **19** studies will be activated in New Zealand in the next 12 months.

400+
patients have enrolled in AbbVie Clinical Trials in New Zealand over the last 10 years.

\$4.8bn+

invested in research and development globally in 2017.

8.8k+
AbbVie R&D employees working globally today.

Impact on society

Investing in our communities.

AbbVie employees are committed to their local communities, leveraging their expertise and time to have a remarkable impact. At AbbVie we care about social causes as well as the health of our patients.

Proud supporters of the **Crohn's and Colitis NZ Great Guts Fun Run** for over 5 years.

Supporting the Wellington Children's Hospital to light up the festive season for all their patients and families.

WEEK OF POSSIBILITIES

AbbVie's signature volunteering initiative.

Globally AbbVie employees volunteer

1000s

of hours to help communities in need.

50 countries

participate in Week of Possibilities.

\$500,000+

provided to New Zealand patient organisations to support numerous programs in the last 3 years.

Each year we volunteer at City Mission centres to help Kiwis who are in crisis.
